They will not have their own division.* Two competitions are open to college-level students. They will compete in their own division.
- **All competitors must attend the Educators Rising National Conference** on June 22-25, 2019 in Dallas, TX. Competitions will take place on-site at the Educators Rising National Conference on Saturday, June 22 through Monday, June 24, 2019.
- If a competitor is from a state that holds state competitions, they must first qualify in a given event at their state conference before competing in that event at the Educators Rising National Conference. Contact your state/regional coordinator to see if your state offers competitions. Visit bit.ly/EdRisingAffiliates to contact your state/regional coordinator.
- **In order to be scheduled to compete in a national competition, all competitor applications, national dues and required materials must be submitted by 5:00 p.m. (Eastern Time), April 22, 2019.** Each competition will identify what materials are required for submission prior to the competition. Your state does not do this for you.**
- For states that offer state-level competitions, the top five places in each competition offered by the state will be eligible to compete at the Educators Rising National Conference; no other entrants from states that offer the competition at the state level will be eligible for those state-level-offered competitions.

General Competition Information Cont.

For states that do not offer state-level competitions, students may register to compete in those events at the Educators Rising National Conference. (For example, if you want to compete in Impromptu Speaking but place sixth or lower in your state-level Impromptu Speaking competition or don't compete in the state level competitions at all — you unfortunately can't compete in Impromptu Speaking at the Educators Rising National Conference this year. If you live in a state that didn't hold an Impromptu Speaking state-level competition, you may register to compete in that event at the Educators Rising National Conference.) This applies to all Educators Rising national competitions.

Any material or forms submitted at previous presentations (ex. state competitions) need to be resubmitted for the national competition in order to count in national competitions.

Videos will not be accepted by mail. The maximum file size for any video submitted in advance is 2 GB. **All competitors should also bring a copy of the video file on a USB drive to the conference.** Educators Rising competitions comply with FERPA in regard to student privacy and video security. Competitors are responsible for ensuring that their competition videos comply with local and state requirements regarding student privacy.

- Spectators may not coach or offer any verbal or nonverbal assistance to a contestant during that contestant's assigned time slot with the judges. A breach of this guideline may result in disqualification of the contestant.
- Spectators may not record any competition without prior consent of the competitors and judges.

- Standard I: Understanding the Profession
- Standard II: Learning About Students
- Standard III: Building Content Knowledge

“Rigorous, relevant, and results-driven CTE programs are vital to preparing students to succeed in the global economy of the 21st century... Millions of Americans and their families stand to benefit from the transformation and elevation of career and technical education.”

— Former U.S. Secretary of Education Arne Duncan

Contest Purpose

Planning, preparing, and delivering effective instruction is the heart of the work of all educators. This competition challenges young educators to plan and deliver a lesson of their choosing to an actual CTE classroom of students. Self-reflection following the lesson is an essential component of this competition; a clear-eyed evaluation of what you've done is the best way to learn and make wise choices in the future.

Educators Rising is one of nine board member organizations of the National Coordinating Council of Career and Technical Student Organizations. Many Educators Rising chapters across the nation operate as part of a CTE program of study. This competition is an opportunity to explore paying forward that positive experience of a being in an excellent CTE program.

This competition encourages Educators Rising members to try out teaching a lesson as a Career Tech teacher. To enter this competition, a student will teach a lesson in a real CTE classroom. CTE programs prepare students to succeed in the world of employment through authentic, real world experiences and hands-on learning. The CTE programs of the future need exceptional teachers to lead them. For this competition, Educators Rising members may plan and deliver a lesson in any of the 16 Career Clusters or their 79 Career Pathways. The full list is here: www.careertech.org/career-clusters.

For models of excellence, students are strongly encouraged to examine the videos and reflective commentaries of National Board Videos in the Get Inspired section of the EdRising Virtual Campus.

1. **LESSON PLAN: A written lesson plan**
 - A. The lesson plan must be submitted online. The entrant should provide his/ her name, the name of the classroom teacher and the school where the lesson was taught, the grade level and subject, date lesson was performed, title of lesson, objective of lesson, description of practice activities, desired outcomes of the lesson, and a method of assessing whether the outcomes were achieved.

- B. A 10-minute video, clearly depicting the entrant delivering the lesson, must be submitted online along with the lesson plan. Do not exceed the 10-minute length. *Only the first 10 minutes of the video will be judged.* (Given that most lessons take longer than 10 minutes, your video may be edited to include compilation of important parts of your lesson.)

2019 LESSON PLANNING AND DELIVERY COMPETITION Career & Technical Education (CTE)

what was learned from the experience that will help him/her become a better teacher. Note cards or papers containing entrant-generated material to support the reflection are permitted. A slide deck is encouraged only if the use of slides enhances the entrant's communication of his or her reflection. Slide decks are not required. *The video will not be shown as a part of this session.*

- B. Judges may ask follow-up questions during the 10-minute reflective, interactive session.

SECONDARY LEVEL (MIDDLE & HIGH SCHOOL)

Points Available	5 Accomplished	4 Commendable	3 Developing	2–1 Needs Improvement
Organizing and Sequencing Content for Student Learning	The progression of the lesson is clearly articulated and strategically designed to maximize student engagement and learning, and to meet the lesson goal and objective.	The progression of the lesson is logically designed to meet the lesson goal and objective. It could benefit from some more explanation for how each facet of the students' experience in the lesson will support the achievement of the goal and objective.	The progression of the lesson aims to meet the goal and objective. It needs more detail or clearer strategy in order to reflect a comprehensive vision of how each facet of the students' experience in the lesson will support the achievement of the goal and objective.	The progression of the lesson seems inconsistent, or unclear, or even at times illogical despite an attempt to achieve the lesson goal and objective.
Instructional Methods	The lesson plan strategically incorporates multiple methods of instruction (ex. teacher talk, student talk, teacher-student interactive talk, student creation of print or non-print text, gallery walk) to maximize student engagement and learning, and to meet the lesson goal and objective. The use of the instructional methods with the content and goal/objective is expert-level in its conception.	The lesson plan incorporates multiple methods of instruction to attempt to maximize student engagement and learning, and to meet the lesson goal and objective. A more strategic use of the instructional methods with the content and goal/objective would likely yield better student outcomes.	The lesson plan attempts to incorporate multiple methods of instruction but the rationale and strategy may lack appropriate levels of clarity, feasibility, or applicability.	The lesson plan reflects limited understanding of instructional methods to support student learning, student engagement, and meeting the goal and objective.

Materials	The lesson plan is clear about what materials will be required. Those materials are expertly chosen to maximize student engagement and learning, and to meet the lesson goal and objective.	The lesson plan is clear about what materials will be required. Those materials apply to the lesson but may not represent the most efficient selection to maximize student engagement and learning, given the lesson plan's goal and objective.	The lesson plan does include materials to be used but would benefit from greater specificity in their description or strategy in their selection. Not all materials are essential to achieve the lesson's goal.	The lesson plan includes a partial list of materials to be used. The strategy is vague or incomplete for describing how to leverage use of these materials to support student engagement and learning to meet the lesson's objective and goal.
Assessment	The plan includes a professional-caliber selection of assessment method(s) and a thorough description and rationale as to how student learning relevant to the lesson will be assessed.	The plan includes a detailed description of how student learning relevant to the lesson will be assessed. It could be strengthened with a clearer rationale or a more efficient selection of assessment method(s).	The plan includes a basic description for how student learning relevant to the lesson will be assessed. Its selection of assessment method(s) and rationale as to why reflect commendable if basic understanding of uses of assessment.	The plan includes an attempt at a description of how student learning will be assessed, but the method(s) may not be entirely relevant, realistic, explained, or educationally useful.
Mechanics & Professionalism	Structure and style reflect professional-caliber formatting for a lesson plan. Mechanics — including grammar, spelling, punctuation, and capitalization contain no errors.	Structure, style, and mechanics — including organization, grammar, spelling, punctuation, and capitalization contain one or two errors or formatting distractions.	Structure, style, and mechanics — including organization, grammar, spelling, punctuation, and capitalization contain three or four errors or formatting distractions. Organizing and Sequencing Content for Student Learning	The video shows clear evidence of the execution of a strategically designed progression to maximize student engagement and learning, and to meet the lesson goal and objective.	The video shows evidence that the progression of the lesson is logically sequenced in its execution to meet the lesson goal and objective. It is not entirely clear how every aspect of the students' experience in the lesson supports the achievement of the goal and objective.	The video shows evidence that the progression of the lesson moves the student toward the objective and goal, though multiple, more strategic paths are available.	The video shows a progression of the lesson that seems inconsistent, or unclear, or even at times illogical despite an attempt to achieve the lesson goal and objective.

The video shows evidence of strong usage of classroom management strategies to achieve near-total student engagement throughout the lesson.	The video shows evidence of usage of classroom management strategies to achieve acceptable student engagement throughout most of the lesson.	The video shows evidence of the contestant's developing understanding of how to manage a classroom. Inefficient or misguided usage of specific management strategies (ex. physical set-up of classroom, managing transitions within the lesson, addressing off-topic comments, redirecting or preempting disruptions) limit potential student engagement throughout most of the lesson.
Execution of Assessment	The video shows clear evidence of a professional-caliber use of assessment to measure student learning directly related to the lesson's objective and goal.	The video shows some evidence of an attempt to assess student learning related to the lesson plan's objective and goal.	The video shows an attempt to assess student learning, but the attempt may be superficial or not position to deliver substantive information related to the lesson objective and goal.
